ARMOUR SPILL
PROTECTION

Armour Protection Board - Grey is a High Density 4mm thick fluted plastic sheet product which is versatile, easy to use and install, and can be used in many different applications as a temporary surface protection solution. Commonly used to protect floors in high traffic areas since it can withstand impact from carts, lifts, and other heavy duty traffic. It is also commonly used to protect doors, walls, and countertops, as it offers durable protection from high impact and heavy traffic, whilst being easy to handle, and often reusable. It is lightweight, waterproof, flexible, impact resistant, easy to cut, and it lays flat, making it a first choice for many construction professionals.
