

# ARMOUR DOOR-GUARD

RECYCLED  
CONTENT

ARMOUR SPILL  
PROTECTION

RE-USABLE

The Armour Door-Guard is probably the fastest and easiest way to protect a door from potential impact and jobsite damage. It comes pre-folded making it easy to store with little space required, and when you're ready to protect the door, simply hang it on top of the door and unfold the Door-Guard either side. Once it's unfolded onto the door, you can use the attached velcro straps to hold the Door-Guard in place. Made from 4mm thick fluted plastic sheet, it offers great durability and impact resistance, and is highly reusable plus it saves huge amounts of time.
